

NEW TECHNOLOGIES WORKING GROUP

Discussion

- Review of actions from New Tech Consultation
 - ▣ Job aids, advancing PPH technologies, community based rape care, and cell phone initiative
- E Ranger motorcycle ambulance results
- Use of locally produced videos as a health worker training exercise
- Pros and cons of developing videos for each setting versus using video footage from each region for more globally relevant trainings
- Need for coordination with other clusters to assure sufficient infrastructure for health facilities

Gaps

- Additional field staff input on job aid needs
- Central library for IEC/BCC materials
 - ▣ Video footage
 - ▣ Local art work
 - ▣ Field tested messages
- IAWG members need more info on EML applications for Misoprostol (PPH and PAC)
- Landscape analysis of cell phone applications
- Evaluation of locally produced training videos and impact on health worker performance

Action Plans

- Circulate job aid survey via RH coordinators
 - ▣ Develop and field test job aids
 - ▣ Use field test to assess other technology needs
- Query IAWG members on IEC collections
- Circulate EML application and letters of support for Misoprostol via IAWG list serve
- Coordinate with training group to use and evaluate locally produced videos
