Columbia University

Ms. Ashley Wolfington, Reproductive Health Specialist, International Rescue Committee

Moderated by

Dr. Jemilah Mahmood, Humanitarian Response Branch Chief, UNFPA

The 2010 *Inter-agency Field Manual on Reproductive Health in Humanitarian Settings* is an update of the 1999 *Reproductive Health in Refugee Situations: An Inter-agency Field Manual*, the authoritative guidance on reproductive health interventions in humanitarian settings. The 2010 version provides updated information based on normative technical guidance from the World Health Organization and reflects good practices documented in crisis settings around the world. It was developed in collaboration with over 100 members from United Nations agencies, non-governmental organizations, academic institutions and governments that make up the IAWG on Reproductive Health in Crises.
